How Well-Vaccinated Is Your Child's Child Care/Preschool Facility?

Child care facilities with low vaccination rates are at increased risk for outbreaks of vaccine-preventable diseases.

How Is Your Child Care/Preschool Doing?

Some children are allowed by California law to skip immunizations if a parent submits a **personal beliefs exemption (PBE)** or medical exemption (PME) at enrollment. Other children may be admitted to child care on the **'condition'** they complete remaining vaccinations when due. Often there is no follow-up and these children remain under-vaccinated. Note: Child care /preschool facilities with fewer than 10 students are not listed and will not appear on the map.

Use the search fields and map below to find your child's child care facility. Click on the icon to view the facility's vaccination status as reported for the 2013-2014 school year.

What the Percentages (%) Mean?

- UTD Rate: Up to date rate = % of students with all required vaccine doses
- PBE Rate: % of students with a personal beliefs exemption (PBE)
- DTP Rate: % of students with all required DTP doses
- POLIO Rate: % of students with all required POLIO doses
- MMR Rate: % of students with all required MMR doses
- HIB Rate: % of students with all required HIB doses
- HEPB Rate: % of students with all required HEPB doses
- VAR Rate: % of students with all required VAR (chickenpox) doses

-  Most Vulnerable (less than 70% of students fully vaccinated)
-  More Vulnerable(70-79% of students fully vaccinated)
-  Vulnerable (80-94% of students fully vaccinated)
-  Safest (95-100% of students fully vaccinated)
-  Did not report in 2013-2014
